I am Forensic Expert. My qualification is B. Sc. (Hon.) Forensic Science and M. Sc. Forensic Science alongwith practical training on the subject of Forensic Science. In this case I have taken the photographs of disputed, admitted and specimen thumb impressions on 17.08.2012 from the judicial file after obtaining the permission of the Hon'ble Court. I have personally (individually), scientifically and carefully examined and compared disputed, admitted and specimen thumb impressions and my definite opinion is that the disputed thumb impressions (Left Hand) mark as D-1 to D-4 in my report tally with the admitted as well as the specimen left hand thumb impression mark as A-1, A-2 and SL-4 in my report, belong to the same thumb of the same individual. My report is Ex.MW-2/1 bears stamped and signed by me at points A, B, C and D alongwith the enlarge photograph of the admitted / specimen and disputed thumb impressions. Ex.
