It is wrong to suggest that the report Ex.MW-2/1 is false and fabricated. It is wrong to suggest that I prepared this report falsely in favour of the management, on the instructions of the management. It is wrong to suggest that I give report in favour of the party who engage me. It is correct that I have charged some professional fee from the management. It is wrong to suggest that there is no recognised university which provides degree course in the subject of forensic science. It is wrong to suggest that the opinion given by me is wrong and baseless.
